

TABLE 3. Detailed Statistics for Selected Geographic Areas and Type of Operation: 1963

Item	United States all operations	West South Central (Arkansas)	Mines only	106 Ferroalloy ores	1062 Wannanase ores	1064 and 1069 Tunosten and ferroalloy ores, n.e.c.
Establishments, total						
number						
With 0 to 19 employees						
With 20 to 99 employees						
With 100 employees and over						
Including mines						
Including treatment plants						
Net shipments of primary products, 1,000 long tons						
Value of shipments and receipts, \$1,000						
Minerals transferred to other establishments for treatment and purchases for resale						
Net shipments and receipts, total						
Primary products						
Secondary products						
Value added in mining						
Persons in industry, total						
number						
Production, development, and exploration workers (average for the year)						
March						
May						
August						
November						
Other employees						
Proprietors and firm members						
Performing manual labor						
Man-hours worked by production, development, and exploration workers, total						
At mines, total						
Underground						
Open-pit						
Surface

Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual companies. (NA) Not available. (X) Not applicable.

(Z) Includes data for one nonproducing mine.

For bauxite, represents gross shipments less shipments to treatment plants in dried bauxite equivalent; for manganese ores, represents production of crude manganese ores.

Represents only cost of minerals received for treatment.

For this type of operation shown as the same as total value of shipments and receipts, since minerals for treatment are transferred to other types of operation.

Represents value of shipments and receipts less the cost of minerals received for treatment. Includes the value of purchases for resale.

Figures for number of production, development, and exploration workers for all months were collected for this industry. The totals for the United States for the months not shown above are: January, 175; February, 162; April, 182; June, 173; July, 178; September, 184; October, 181; and December, 180.

The undistributed fuels cost was for Bauxite, \$4 thousand; for Manganese Ores, \$6 thousand; and for Tungsten Ores and Ferroalloy Ores, N.E.C., \$15 thousand.
